

## LOEWE Afternoon Workshop: “Epigenetic regulation of stem cell fate“

Friday, 24 June 2016, 13:30 o'clock

Goethe University, Theodor-Stern-Kai 7, Haus 33, Room 214/215

Time	Speaker	Title
13:30-13:55	Xuejun Yuan	Disruption of spatiotemporal hypoxic signaling causes congenital heart disease via epigenetic changes
13:55-14:20	Theodora Melissari	Lineage specific genome regulation in mouse embryo development by long non-coding RNAs
14:20-14:45	Guillermo Barreto	Nuclear Mirlet7d induces gene silencing by lncRNA-dependent recruitment of an exosome complex
14:45-15:00	Break	
15:00-15:25	Chiara Cencioni	Identification of early cardiovascular precursors in naïve mouse embryonic stem cells
15:25-15:50	Jörn Lausen	Regulation of hematopoiesis by differential histone modifications
15:50-16:15	Sirisha Cheedipudi	Isl1 mediated epigenetic memory during cardiogenesis
